

Cenex News

Happy Easter!

Employee Spotlight

This month Cenex is recognizing Rusty Deserly for all of his hard work and dedication.

Rusty was born and raised right here in New Town. Attending New Town Public Schools. After High School Rusty joined the United States Marine Corp. and was enlisted from 1970– 1972. Most of his time he was stationed at Camp Pendleton, San Diego, California. Rusty stated that during this time he met many interesting people.

After returning to “Good Ole North Dakota” Rusty started his career in the oil field, first working for National Tank for a couple of years, before joining Cenex his first time. He

stayed for a couple of years before moving onto Texaco for five years and then to Amoco where he worked for 21 years.

In 2001 Rusty returned to Cenex to drive LP bulk truck, and continues to do so. The propane truck has kept Rusty very busy for the past 8 years. He stated that he loves the work he does and has enjoyed meeting and becoming friends with so many people in the community. He also stated that he enjoys everyone he works with.

Rusty and his wife Betty continue to make their home just south of New Town. They have two grown daughters, Jody and Jamie.

Along with five grandchildren, four boys and one girl.

When Rusty is not busy filling your LP tanks to keep you warm, he is busy with the responsibility of President of the Charity Gaming for the Legion and also belongs to the Legion Color Guard. He also enjoys hunting, camping, fishing and boating. The Great Outdoors!

Rusty is a very popular LP driver and the customers along with his co-workers appreciate the work he does.

**Thanks
Rusty for all
of your hard
work!!**

From the desk of John Reese

Valued Patrons:

As I write this article gas and fuel prices continue to move upward as well as the price of crude oil. Most of our customers have filled or locked in there spring fuel needs. I suggest that as soon as you have room for your harvest fuels you purchase them. The past six years the highest price fuel has been for harvest. I'm sure many of you have read

that Cenex did have some issues with their fuel coming out of the Minot terminal in mid February... We were lucky enough to not get any of this product in to any of our locations. We did have an issue with our winter blend fuel in late December and January. If you had any problems with this fuel please call.

We are putting together our early fill propane program, it will be very similar to our last years program. Fill in May and June with deferred billing until August 30th. Also contracts will be available as well as our budget plan.

Watch your mail box or check out our website @ www.cenexunited.com

Thank you - John

A Word from Doug at the Main Station

Per February's Employee spotlight Doug would like to start out by apologizing to his significant other and mother of his children, Jess Kinscherf for not mentioning her in the spotlight article. He stated he was being self-centered and is sincerely **SORRY**.

The price for all ag and tractor tires will not be changing. Now would be the time to get in and order to get them at the spring sale price. We also just got in 31 x 13. 50 x 15 Firestone Turf Tread tires for the new air seeder. We have only a limited supply of these tires available they will be sold on a first come first serve basis, and be hard to get, order as soon as possible to get what we have in stock. We also have a large amount of 165R15 air seeder tires available at \$55.00 each.

Again we thank you for your business and should you have any questions, give us a call or stop in.

Update from Barb...

Go Green!!

Think Spring!!

As mentioned by John, we are offering new LP contracts for 2009-2010 heating season. Also for you that have not tried our budget plan stop in or give us a call regarding this. We will go over it with you and explain the opportunities of a budget plan. The budget plan and contract go well together and give you the piece of mind of having propane in your tank.
